Get Back on the Road...

The roads you drive on every day are littered with debris like glass, metal, nails and leftovers from construction. Constant punishment from large trucks, snowplows and hot-to-cold weather extremes, leaves the roads with cracks and major potholes that are dangerous hazards to the expensive tires and wheels on your vehicle.

Did you know that neither your vehicle's manufacturer or tire manufacturer protects you against the daily perils of the road? And, that replacement of your tires and/or wheels is an unexpected expense these days that can put a damper on your finances.

The Sentry Guard Tire & Wheel Protection Plan has you covered! We will pay to repair or replace your tires and/or wheels if they become damaged due to contact with road debris or potholes. This protection plan is a no-hassle affordable coverage that quickly gets you back on the road and moving in the right direction.

This brochure is not a contract but an outline of the Sentry Guard Tire & Wheel Protection Plan. See your contract for exact terms, coverages and exclusions.

Program Terms

- Up to 5 years of coverage
- Available on all vehicles, new and used
